Vacuum Dehydration Hire Fleet

Simply dumping the contaminated hydraulic oil will not remove all of the contaminated water from the hydraulic system.

Our vacuum dehydrators have user friendly operating system and are designed for 24/7 unattended operation.

Turn your milky, contaminated hydraulic oil back into its original golden state & avoid the added expense of replacing & disposing of contaminated oil.

No Other Technology Removes Water Faster

Our fleet of six vacuum dehydration units from Hy-Pro are one of the most effective solutions for the removal of water from hydraulic & lubrication systems.

Having a fleet of six units (**V 5 to V20**) invariably means we can react quickly should you have a water ingress problem that needs urgent attention.

Weekly, monthly or long term rental options are available.

Our Hire Fleet of Dehydrators Include:-
